

**10 September 2024**

**To All Air Carriers Operating or Intending to Operate at Chicago O'Hare International Airport for the Summer 2025 Season:**

The Chicago O'Hare Airport Scheduling Manager is bound by Sections 2.3 and 2.4 of the Chicago O'Hare Terminal Space Use Protocols (TSUPs) to communicate a Seasonal Update one (1) month prior to the Summer 2025 Submission deadline, which in this specific case is **10 October 2024**.

Thus, this correspondence and IGC (International Gate Control) website link provided below will provide all Air Carriers operating or intending to operate into Chicago O'Hare with the Terminal Space Use Protocols, Master Common Use Gate Space Plans, Capacity Parameters and, as listed below, the submission deadline dates that will be used to coordinate airport facilities for the IATA (International Air Transport Association) Summer 2025 Season which becomes effective on **30 March 2025** and operates through **25 October 2025**.

It is critical to do a detailed review of this content and respond with all the required information by the specific due dates.

**Summer 2025 Submission Deadlines:**

1. Schedule Submissions for Use of Preferential Use Gate and Terminal Space including Preferential Gate Space Plans – **10 October May 2024**. (Section 2.4 of the TSUPs)
  - a. Any Preferential carrier overscheduling Remain Overnight Operations (RONs) - that plan to utilize Common Use Gate or Hardstand Space must be included as part of their Initial Schedule Submission.
  - b. Monthly schedule updates must be submitted in accordance with Section 2.4 of the TSUPs.
    - i. Monthly schedule updates must be submitted in UTC.
    - ii. **Monthly schedule updates in Excel format will no longer be accepted by the Scheduling Manager.**
2. Schedule Submissions for Use of Domestic (which includes EAS carriers) and International Common Use Gate and Related Common Use Ancillary Terminal Space if required – **10 October 2024**. (Section 2.3 of the TSUPs)
  - a. Domestic and International Schedule Submissions to be submitted by Network Planning.
    - i. **Schedules submitted by Local Station Management will not be accepted.**
  - b. Related Common Use Ancillary Terminal Space requests to be submitted by Local Station Management.
    - i. International and Domestic Common Use Ancillary Space Request forms and instructions are on the IGC Inc. website under the O'Hare-Seasonal tab.

**Please note the following:**

1. Impact and Penalty for Late Submissions of Initial Schedules and Gate Space Plans (Section 2.5 of the TSUPs)
2. Impact and Penalty for Late/Non-submission of Terminal Ancillary Space Requests will result in the assignment using Section 5.2 of the TSUPs.
3. O'Hare Remote Hardstands (midfield) available for use with ADG Group III aircraft only.
4. Voluntary Accommodation Declaration Form for use by Preferential carriers to note which airlines they will be voluntarily accommodation on Preferential space.
  - a. This form is not required, but helpful for the Scheduling Manager to note what specific aspects of Preferential space will be used to make the voluntary accommodations.

**Impacts to EAS (Essential Air Service) Carriers**

1. EAS carriers not being voluntarily accommodated by Preferential Gate Space carriers at O'Hare will be utilizing the M1A and M1B parking area (aircraft type dependent) or Domestic or International Common Use Gates and/or Hardstand space at Terminal 5 or Terminal 3.
2. EAS carriers will be scheduled to Common Use check-in space available at Terminal 2, Terminal 3 or Terminal 5 as defined within the capacity declaration.

**Note to Common Use Departing Carriers**

1. Following the schedule submission approval process a form will be sent to Local Station Management to complete related to specific overhead check-in signage information.

All information and associated attachments are posted on the IGC website under the O'Hare – Seasonal tab.
